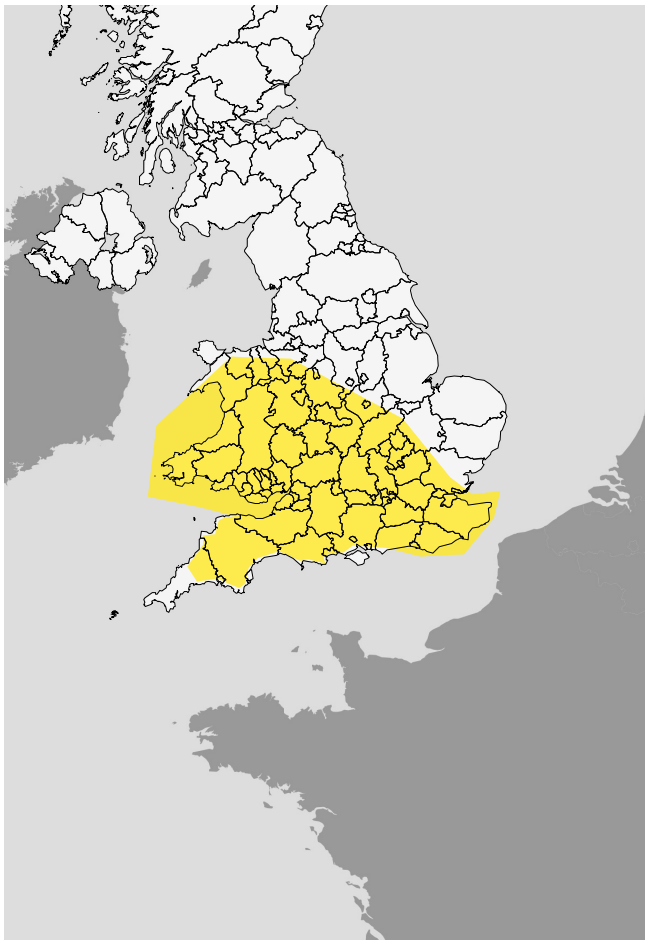
Yellow warning
Snow & Ice

Between
03:00 Sun 24 Jan 2021 and
18:00 Sun 24 Jan 2021



A band of rain will turn readily to snow as it spreads eastwards leading to possible transport disruption.

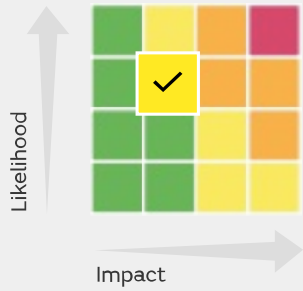
What to expect

- Some roads and railways likely to be affected with longer journey times by road, bus and train services with the potential for some roads to become blocked on higher level routes
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

An area of rain will cross the west and southwest of the country on Sunday morning and turn readily to snow as it spreads eastwards, and also lead to some icy surfaces.

Mainly 1-3 cm of snow accumulation for most parts, but possibly 5-10 cm over 100 m with a small possibility of 10-15 cm over high ground for example on Dartmoor, the Brecon Beacons and Snowdonia. These snow amounts will cause some disruption to transport, especially on routes that cross even modest high ground.



Medium likelihood of low impacts

Issued at 10:43 Fri 22 Jan, 2021
